Testimonials

Why Marketers Love Mentions.so

Our brand disappeared from Gemini completely. Mentions.so helped us figure out exactly why and how to fix it.

Priya Malhotra
Head of Digital Marketing

We rewrote content based on their insights and got back into Gemini within two weeks. Never seen results that fast from any tool.

Marta Gomez
SEO Manager

I was skeptical about another tracking tool. Mentions.so showed us what our reports were actually missing across AI-generated answers.

Marco Leoni
SEO Analyst

I've been doing SEO for ten years and this tool is mind-blowing. It doesn't just track mentions—it shows you actual traffic from AI sources.

David Kim
Senior SEO Consultant

Other tools tell you what happened. This one shows you how AI makes decisions about your brand. Completely different approach.

John O'Reilly
Digital PR Lead

The alert showed Claude had dropped us from key topics. Used their insights to get back into answer boxes within days. Direct impact.

Tania Ivanova
Digital Marketing Consultant

We were getting cited everywhere except ChatGPT and Claude. Mentions.so showed us the specific content gaps we needed to fill.

Julia S.
Content Strategy Lead

Started tracking one project, now we use it across five clients. The clarity is unmatched compared to anything else out there.

Neha Sharma
Account Director

Claude and ChatGPT stopped citing us completely. Mentions gave us page-level changes to bring those mentions back.

Alex Nguyen
In-House SEO

Our brand disappeared from Gemini completely. Mentions.so helped us figure out exactly why and how to fix it.

Priya Malhotra

We rewrote content based on their insights and got back into Gemini within two weeks. Never seen results that fast from any tool.

Marta Gomez

I was skeptical about another tracking tool. Mentions.so showed us what our reports were actually missing across AI-generated answers.
